To secure a responsible career opportunity, to expand my learning skills and knowledge and also improve my work experience.

PROJECT:

1. **PROJECT – BLOOD DONATION MANAGEMENT SYSTEM:** Blood Donation management System is to create an e-Information about the donor and organization that are related to donating the blood. Through this application any person who is interested in donating the blood can register himself in the same way if any organization wants to register itself with this site that can also register. Moreover, if any general consumer wants to make request blood online, he can also take the help of this site. Admin is the main authority who can do addition, deletion, and modification if required.
