Objective

To enhance my professional skills, capabilities and knowledge in an organization which recognizes the value of hard work and trusts me with responsibilities and challenges.

Education

- **Visvesvaraya Technological University** 2018-2022
Bachelor of Engineering
6.68/10
- **KSEEB** 2016-2018
PUC
427/600
- **KSEEB** 2016
SSLC
535/625

Skills

- Java
- Python
- DBMS

Projects

- **Smart Intravenous Driprate Controlling and Monitoring System**
Intravenous treatment is a method of delivering medicine directly into the body through veins. It is the quickest way to carry fluids into the body. This automatic fluid level monitoring system provides more flexibility to doctors, thereby patient care is enhanced. This system is reliable, cost-effective and convenient for Nurses.
- **Mini project on Healthcare Management System**
A Healthcare Management center is looking to develop patient portfolio management system which is able to track their patient's medical history. This system facilitates the centre to retrieve, update and report the patient information efficiently in turn helping the doctors make timely effective diagnoses.
