EDUCATION

Computer science Engineering Rajarajeswari college of engineering

06/2018 - Present

7.20

12th S.E.T PU College

05/2017 - 11/2018

72.33

10th Blue Bell Public High School

02/2015 - 02/2016

80.64

WORK EXPERIENCE

Internship TEQUED LABS PVT LTD

09/2021 - 10/2021

Bangalore

Tasks

- Data visualization using pandas, analyzing and processing of data using pandas, Numpy, Matplotlib, Sci-kit learn.
- Implemented data visualization, data cleaning , data acquisition, data modeling and testing on iris plant dataset.

SKILLS

Python3

C++

C Programming

Machine Learning

MATPLOTLIB

Numpy

Pandas

Sci-kit Learn

NLP

Data Visualization

PROJECTS

IRIS DATASET

- We used a machine learning technique called classification to classify Iris plant data set using Pandas, Numpy, Matplotlib, Seaborn, Sci-kit learn.

Fraud detection in banking sector

- In this project we will use ML and blockchain technologies.
- Where ML for detection of fraud transactions in banks.
- Blockchain for storing those transaction data.

Malware Detection and Classification

- Here we use ML to detect and classify the malware.

CERTIFICATES

Python course certification by Guvi.

Certification for completing 7-day bootcamp on "Python and machine learning" by ShapeAI.

LANGUAGES

Kannada

Full Professional Proficiency

japanese

Elementary Proficiency

Hindi

Full Professional Proficiency

English

Full Professional Proficiency

INTERESTS

Gaming

Reading light novels
