FINAL YEAR PROJECT

Project : College Data Management Systems
Role : Web Development
Environment : PHP3.4, CodeIgnitor MVC, MySQL, HTML5,CSS3

Description:

This System refers to the process of administration of financial records, result records, attendance records of staff and students of College. It helps in reducing the documentation by providing all those things in one application.

This System deals with providing notes, notices, stationary materials checklist student data, staff data, fees records, staff salary records. We tried to integrate all information related with college in one application

Responsibilities:

- Modifying the code as per new requirements and new features being added. Emphasized on two modules.
- Handled Student Login module and admin login module

STRENGTH FACTORS

Good strength of working with team,creative & I am always energetic and eager to learn new skills, ability to quick learn, leadership.

DECLARATION

I hereby declared that the above information is true to the best of my knowledge and belief.

(Rahul Rajaram Gawade)
