TECHNICAL SKILLS

- **Languages :** C, OOPS concepts in JAVA.
- **Web Language and Database :** SQL.

ACADEMIC PROJECT

- **APARTMENT MANAGEMENT DATABASE SYSTEM .**
 - **Description :** The main aim of the project is to provide utility to maintain day by day operation of apartments.

This software helps them to store all transactions electronically in a system, which in turn saves lot time, money, and energy. We have developed this project for a renowned construction company which built many apartments and is also planning in the future to make other apartments in the city.

The details of the Apartment like number of floors, flat type, monthly rent, total number of apartments and information about the tenants who are taking apartments for lease or rent are maintained in the database.

This system updates details of the apartment. The scope of the project is to make the works of the users especially the construction company. Using the constructs of MYSQL server and all the user interfaces have been designed using DONNet technology.
